

# MOVE. TOW. carry. HAUL.

Shown with smooth plate body.

## Chariot

The Chariot is designed to move key personnel around your facility quickly, quietly and efficiently. With PURE ELECTRIC power and an overall width that will fit through most standard door openings, your Chariot will take you everywhere you need to go.

A low center of gravity and the increased visibility of stand-up operation mean the Chariot is a safe way to move around an indoor or outdoor space.

Moving three times faster than normal walking speed allows you to cover more ground on your Chariot in less time.

### Perfect For:

- Colleges / Universities
- Warehouses
- Sporting Complexes
- Wherever you need to move key personnel efficiently
- Government Facilities
- Maintenance
- Hospitals

Shown with diamond plate body.

Shown with strobe light and smooth plate body.
